## A way forward

The war has left millions of Ukrainians without a roof over their heads or money to live on. For many, the only life-saving option has been to flee, often leaving everything behind. Fellow Ukrainians have united with the international community to offer time, financial, and material resources to help internally displaced people.

However, for the individuals providing direct assistance to internally displaced people, the search for aid is time consuming and resource heavy,

particularly as the war enters its second year. Representatives of both Piatyhatky and Bershad commented on the challenges they faced in locating humanitarian essentials. Now, thanks to Prozorro+, they and others can quickly find donors eager to provide funding or material aid. For these donors, Prozorro+ is both convenient and assuring, as it prioritizes transparency and accountability in both donation and reporting, and encourages further investment in Ukraine.

The USAID / UK aid Transparency and Accountability in Public Administration and Services / TAPAS Activity supports citizens and the Government of Ukraine in reducing or eliminating corruption in key public administration functions and services through eGovernance reform and introduces best international practices in the key areas of eProcurement, Open Data, and eServices
